## The Daily Standard. Wednesday, July 26, 1871. A Queer Motion

A very queer notion has got abroad, to the effect that on and since the 20th July,—our Confederation day,—overy thing has been set loose—that there are no judges, no ministerial officers, and that we have become a purely self-governing limited. How such a stupid notion has got abroad, except through the columns of abroad, except through the columns of abroad, except through the columns of spencer ball; 2,290 filled cannon cartridges and 20,443 10-16 lbs. of powder for artillery purposes. Also 253 tents and appurtenances; 800 iron bed-scade and 1.146 berrack/inen sheets. At Klugston, 7,000 complete sets of infantry accountements; 4,940 additional waiet belt and union lockets; and 5,000 frogs; 2,271 rifls kuspeacks and 1.59 A very queer notion has got abroad According to the 10th and 14th section of the Terms of Union, and the 129th section of "The British America Act, 1871," the law is explicit, that "all laws in force at the Union, and all courts of civil and criminal jurisdiction, and all legal commissions, powers, and authorities, and all officers, judicial, administrative, and ministerial, existing" in the Province "at the Union, shall continue as if Union had not been made," subject to the Union Act. Undoubtedly when Union took place, Gov. Musgrave cessed

Waist belt and union lockets, and 5,000 frogs; 2,271 rifle kuspsacks and 159 tents and appurtenances; 1,635,950 rounds of Suider ball; 168,187 ditto blanks; 6,787 rounds of Spencer ball; of order of Spencer ball; 168,187 ditto blanks; 6,787 rounds of Spencer ball; 168,187 ditto blanks; 6,787 rounds of Spencer ball; of order of Spencer ball; 168,187 ditto blanks; 6,787 rounds of Spencer Union took place, Gov. Musgrave ceased to be His Excellency and became His or, and from Governor became Lieut. Governor, in case he held any office at alt after the 20th. But outside of the Lieut. Governor's office there cannot be a doubt as to the position of any official.

Those whose offices became Federal or

mained Provincial, were only altered in respect to the authority above them to whom they were accountable. Nothing more. The absence or presence of Gov. Musgrave don't make a whit's difference. The only officer necessary to complete our Provincial staff of officers is a Lient.

Governor. He is absent. When he arrives, the whole political fabric other than the Legislative will be complete; and the latter cannot be completed till the next election. Between now and the arrival of Gov. Trutch we can get along very well without an administrator. any public exigency should arise within the next ten days, a telegram to the Governor-General would soon bring somebody's appointment as administrator. But it is totally unnecessary—not more required than if Gov. Trutch had gone out in the Straits yachting.

Military Stores of the Dominion

In the Cabinet we have a Minister of Militia, Sir Geo. E. Cartier, who holds a similar relation to the Dominion that the Minister of War, Mr. Cardwell, does to the Empire. Now, we are not at all likely to learn everything about the denartment of the Minister of Militia at once. All our arms-bearing population will, however, in a short ti militia duty. To that part of their national duty we hope there will be no objection, when the time comes. What the exact claim that may be made on the time of militiamen we don't know, but all will learn soon enough. In the meantime. it may not be unacceptable to know something, even if it is very little, about the military stores of the Dominion. So here is what the Canadian News says on the ambject, imperfect as is its summary:

A late report by the Director of Stores, Colonel Thomas Wily, contains much interesting information. By it we learn that the number of uniforms returned as the contains to the legislature.

Requisition to W. J. Weston hand in Ottawa on the 1st of January. blouses for a force exceeding 10,000 men, together with supplementary articles. There were also some 4,000 additional outilts in store at Halifax. The amount of ammunition in stock was also very large, notwithstanding that all the old Enfield or muzzle-loading cartridges, with the exception of a small quantity at Halifax and St. John, had been sent to Toronto to be broken up and converted into cannon cartridges for practice and salutes. On the 31st December there remained in the magazines in Canada 2,101,368 rounds of ball and 415,955 of blank cartridge. During the year 195,400 rounds of Suider ball ammunition had been sold, for which the Militia department received the sum of \$4,783. The department of Marine and Fisheries had been supplied from the D en supplied from the Dominion stores to the amount of \$4,976, not included in the above statement, with Spencer rifles, Colt's revolvers, accourrements, and ammunition for the service of the vessels employed in the protection of the fisheries.

The guns and ordnance stores required for that service were obtained from Her Majesty's Control Department. At the close of last year 6,933 rifles, muskets, and carbines of all patterns were still in store, while 194 iron targets had been distributed throughout the different military districts.

Turning to the forts and armamenta transferred by the Imperial to the Dominion Government, we find that in \$15 PER MONTH. Toronto there are two forts, with seven 8-inch and two 32-pounder guns; the armament of Isle-aux-Noix consisted of seven 32-pounder and five 24-pounder guns, together with two 12-pounder bronze field guns, but all of which have since been removed to St. Helen's Island. The armament at Kingston is heavy, consisting of one 56-pounder, two 8-inch, twenty-four 32-pounder, and seventeen 24-pounder with four 51-inch how-itzers, fourteen 32-pounder, two 24 pounder, and five 18-pounder carronades; as well as one 18-inch, two 10-inch, and two 8-inch mortage. 85 pieces of artiful two 8-inch mortars,—85 pieces of artillery in all. There were, in addition, two 18-pounder field batteries, with waggons, limbers, service stores, and ammu-

nded over to the Dominion authorities anded over to the Dominion making it and still another at Quebec—making it in all. The armsment of St. Helguns in all. The armament of St. Hel-en's Island consists of eleven 24-pounder guns, the saluting batteries on its west side, and two 32-pounder guns at the north end. All these batteries were, at the time of transfer, furnished with the usual service supply of ammunition and

AUSTRALIAN MARKETS .- We have the Sydney Journal of Commerce of June 1st. The arrivals embraced the Helios, Intrepid and Old Dominion, all with lumber from Van-couver Island and Puget Sound. The cargo by the Helios was sold by auction in the Melbourne market, realizing \$30@36 60 for square timber and deals, \$40 80@42 for tongard and grooved, and \$67 20@68 40 for clear pine. It was expected that Victoria would have to import 40,000 tons of wheat, and New South Wales 10,000 tous wheat before next harvest, which quantities would be drawn from the surplus a South Australia. The returns of the Registrar-General for the last agricultural year show a general deficiency in the quantities of cereals raised, as compared with the unting to about 50 per cent. decrease.

To the Electors of Yale-Lytton District.

CHATLEMEN :—I have the honor to acknowledge the receipt of your requisition, and in accepting the honor you wish to confer on me, I will endeavor, to the best of my ability, to carry out your wishes and opinions.

the best of my ability, to carry out your wishes and opinions.

I am not in favor of pensioning the officials, and will advocate the repeal of the Permanent Civil List Act. I will also vote for the repeal of the Qualincation and Registration of Voters' Acts, as they are, in my opinion, unjust and unsuited to the people of this colony. I will resist any attempt of monopoly. I am in favor of an enlarged system of education.

In conclusion, I assure you that it will be my duty to advocate economy in every department of the Government, and to suppor that policy best calculated to benefit the colony, that I will act in unison with the liberal and progressive party, whose principle it is to extend the power of the people and to remove these injurious laws, which are so degrading to the community.

I have the honor to be, gentlemen,

Yours very respectfully,
